

RAHIL AL-JASSASI

CREATIVE TECHNOLOGIST

ABOUT

I'm an immersive experience designer and creative technologist with expertise in UI/UX design, web development, and 3D interactive environments. My work spans visual identities, digital products, educational games, and immersive installations, blending design, storytelling, and technology. With a strong focus on user-centered design and cultural authenticity, I create engaging and meaningful experiences. I thrive in collaborative settings, adapt quickly under pressure, and aim to connect people through innovative digital storytelling and interactive media.
